BK	Block Kill. Block opponent cannot make a play off of.		
BE	Block Err. Block resulting in opponent point (out of bnds)		

Game Point Statistics Explanation

For every point there is a cause. This cause is recorded beside the number of point which was awarded. You may or may not want to record the opponent's player numbers. It is a very quick reference tool to look down the points and see who on your team is earning and who is causing team points. For instance, as the game begins, if Player on the opponent's team serves the ball out, "SE" is placed beside 1 on Waco's side. Next Player # 7 for Waco Aces 2 in a row "SA" and then Waco Player #9 has a Kill Error "KE". The opponent has a Block Kill "BK" and then has a "DAE". As you can see the score is now Waco 4, Opponent 2. You can also see that # 7 has earned the team 2 pts, players 9 & 10 have given the opponents 1 pt. A note to the team could be that the Opponents have yet to earn any pts of their own.

Waco	Opponent
CAUSE OF POINT PLAYER #	CAUSE OF POINT PLAYER #
1_SE_____	1__KE_____9_____
2_SA_____7____	2__BK_____10____
3_SA_____7____	3_____
4_DAE_____	4_____
5_____	5_____
6_____	6_____
7_____	7_____
8_____	8_____

Opponent
This form is also helpful to keep track of the score, subs, time outs, starting lineups and ending game scores that are needed to turn in. This has also been used to backup a coach's decision on playing time. It can be noted that a certain player causes more points than they earn etc…
